Frontliners Rainbow Window Activity

Show your support and solidarity for our frontliners! Healthcare professionals do an astounding, courageous job of saving our lives and helping us lead a healthy life. They are working extremely hard, on the frontlines, in battling COVID-19. In this activity, you will create a rainbow sign that you can put in your front window to celebrate and thank the healthcare professionals who are risking their lives to help others.

Gather Supplies:
• Cardboard
• White Paper
• Markers
• Glue
• Scissors
• String
• Colorful materials (red, orange, yellow, green, blue, purple) from around your house to make a collage on your rainbow (like bottle caps, cereal box cuttings, construction paper, tissue paper, yarn, buttons, etc.)!

Outline a large rainbow arc on a piece of cardboard and cut out the rainbow shape.
3. Draw 6 lines on your cardboard to separate the colors of your rainbow (red, orange, yellow, green, blue, and purple).

4. Fill in each segment with the colors of the rainbow! Start with red at the very top, then orange, yellow, green, blue, and then purple at the very bottom. Glue down the different colored objects that you collected from around your house.

5. Draw some clouds on white paper and cut them out.
Glue your white paper clouds to each end of your rainbow.

The final product should look something like this.

Now, hang or display in your front window for everyone to see!
